HACKMEN VISIT TOWN COUNCIL

Present their Claims Regarding License of Last Year. Battle Anniversary Committee Makes Report Other Business.

A committee of Gettysburg hackmen, representing an association, the name of which they did not state, appeared before the town council at Tuesday evening to present their grievances regarding the payment of the 1912 hack licenses. John E. Pitzer, president of the association, was one of the visitors to the council chamber and he was accompanied by Calvin Heagy, S. N. Hartzell, M. F. Williams, and Andrew Hartman.

These men appeared to state that they were among the twenty three who paid their hack license for 1912 and to ask that council either remit this license to them or that the other people in the same business be compelled to pay for last year.

It will be recalled that last spring an effort was made to get an ordinance which would meet more recent conditions and one was framed providing for all being taxed on a basis of the passenger-carrying capacity of vehicles. This was presented to the town council and passed but was later vetoed by Burgess Holtzworth and nothing ever came of it. Mr. Holtzworth was further told that the old ordinance would not stand a legal test and, believing that those doing hacking on the battlefield could not be made to pay, no further effort to collect license was made. Thus the twenty three were out their money and the others worked all year without paying a license fee.

Council felt that it could do little in the matter. It has no power to remit the money already paid and no power to enforce the old ordinance, claiming that the enforcement of all such measures is entirely up to the Burgess. After a somewhat lengthy discussion the following resolution was presented by Mr. Keith and passed:

"Resolved: that the Borough Attorney be instructed to institute proper proceedings for the collection of hack licenses for the year 1912, now remaining unpaid."

50th Anniversary

Mr. Keith reported for the committee authorized at the January meeting to ask assistance from the Fiftieth Anniversary of the Battle of Gettysburg Commission and said everything the town had requested had been granted. He further intimated that most of the criticism which has been expressed in Gettysburg concerning the commission and its individual members is unwarranted, that they are attending carefully and thoroughly to all the details, even the most minute matters receiving their attention, and that the request of the committee of council for assistance was met in a very fair manner and followed with an appropriation of \$5000 for the erection of latrines and rest stations about the town. The granting of the State Constabulary and the National Guard hospital corps as already told in these columns was also reported.

Mr. Keith stated in his report that the War Department representatives now working here had been allowed \$5600 for the protection of the town at the time of the celebration and the fact that the State Constabulary would be well represented would make this money available for other purposes.

The placing of the latrines throughout the town will be a matter which council intends to consider carefully. It is the idea to have them at public places, two of those suggested being on Middle street at the side of the Court House, and at the open street at the south side of the summit of Baltimore Hill.

A petition was received from Mrs. Ernest Miller asking for councilmanic action on bad sidewalk at the Taughinbaugh property cor. of Water and North Washington streets. The secretary was instructed to send the regular pavement notice.

A petition from residents of Springs avenue and West Middle street extended was received asking for the opening of the alley between those two streets from Howard to Hay street. The ordinance committee was instructed to present an ordinance opening the alley from West street to the borough limits.

Truman Beard asked council for better sewer connection at Fourth street, saying that he intended to build there soon and that the Hanover and York street sewers were too high for his property. A 600 foot extension will be required. The matter was placed in the hands of the sewer committee for investigation.

The treasurer reported a balance on hand in the general fund of \$159.19 and in the special of \$34.95. Bills aggregating \$797.49 were ordered paid.

SPRINGS HOTEL SITE FOR CLERKS

Hotel Clerks' Association Views Springs Hotel Property with View of Buying it for Home of Aged Members.

It is to be Gettysburg or Denver for the new home for aged hotel clerks, which an organization of more than 10,000 members throughout the country is now preparing to establish. The contest will be between the men of the east and those of the west, with the hotel men in this section of the country putting forth their best efforts to make Gettysburg the selection.

In a recent number of the Hotel Men's Magazine there was printed a large cut of the Springs Hotel property and it is this ground which is now being considered and on which, it is stated, an option has been secured. The renovation of the present property and other improvements are contemplated.

An investigation into the merits of the Gettysburg location is being conducted and up to the present time everything is favorable. No other eastern place has been considered and the West has put Denver, and Denver only, in the field.

Just when the final selection is to be made has not been announced but the contest will be watched here with very keen interest.

BROKE QUARANTINE

New Oxford Business Man Fined for Violating the Law.

John H. Duttera, the lumber and coal dealer at New Oxford, broke the quarantine laws on Monday and was fined \$5 and costs of prosecution amounting to \$3.62 when brought before Justice of the Peace Charles K. Yeager, Tuesday morning.

A young daughter of Mr. Duttera contracted measles several weeks ago, when the house was quarantined, Mr. Duttera being only under modified quarantine, and allowed to go to his place of business. As the child was recovering, two other children contracted the measles. Mr. Duttera on Sunday was placed under absolute quarantine with the rest of his family. He went down to his office Sunday morning to fix the fire, and for the offense he was haled before the magistrate by Constable Hensel and fined.

The young couple were attended by Miss Marie Kerchner, of Hanover, a niece of the bride, and Paul Bunty, brother of the groom.

Mr. and Mrs. Gustavus Culp, of Hanover, formerly of Fairfield, left today for Orlando, where they will make their future home. Mr. Culp's health has been failing and a lengthy visit to Florida led to their determination to remove there, as his health showed great improvement in that genial climate.

Mr. Culp went to Hanover from near Fairfield, where he was in the lumbering business and operated a saw mill. He continued to conduct this business very successfully during his residence there and by integrity and strict attention to business combined with a genial manner, established a high reputation as a business man.

WOULD PROVIDE FOR ALL VETERANS

Union and Confederate Veterans Living in this State to be Given Free Transportation to Gettysburg. Battle no Question.

The State Senate on Tuesday passed finally and unanimously the current resolution requesting the Commission on the Fiftieth Anniversary of the Battle of Gettysburg to broaden its scope so as to invite all Union soldiers, sailors and marines of the Civil War now living in Pennsylvania; soldiers who served in commands known as the "Emergency Troops" and Confederate soldiers, now citizens of Pennsylvania. The resolution was sent to the House.

This action is in line with that taken by a number of other states where all the veterans, both north and south, and regardless of whether or not they were in the Gettysburg fight have been invited to attend and appropriations have been made or are expected to meet their expenses.

Should this plan become general throughout the country, it is likely that the present estimates of the number of veterans to attend the celebration will be exceeded and this will naturally make the camp all the more busy.

Preparations are going along steadily, the drilling of the wells now in progress being the first actual work done on the camp site.

NEW HIGHWAY LAW

Proposed New Law would Do away with Much Delay.

Senator John W. Hoke, of Franklin county, has introduced a bill in the Senate to amend the state highway law. It provides that in the case of the Highway Commissioner deciding to take over a toll road he can do so before the damages have been fixed by the process of law. Under Mr. Hoke's bill, the state can go ahead and make improvements and remove the toll gates before the courts have determined the damages the owners shall have. If this bill were now in force the state could take possession of the Bedford pike and have much work done on it before the case is out of the courts. The advantage of this new law is obvious.

SIX RABID COWS ON ONE FARM

Cumberland County Farmer Loses Six Cows from Rabies. Now Undergoing Treatment at Marietta. State Takes a Hand.

The announcement by the State Veterinarian's department that six of his cattle had died of the rabies, caused John Ludt, who lives in Cumberland county to hasten to Marietta, to undergo the Pasteur treatment for the prevention of the disease.

About two weeks ago a stray dog came to Mr. Ludt's farm. The dog together with Mr. Ludt's dog, was locked in the cow stable. Later they were released and ran away and have not been seen since. Later, six of Mr. Ludt's cattle became suddenly ill. Dr. E. M. C. Morrette, of Carlisle, was summoned. Owing to the peculiar nature of the disease, Dr. Morrette, ordered the cattle killed and sent samples of the blood away to be examined by the state authorities. This week he was notified that the cattle had died of the rabies.

Mr. Ludt had an affection on his hand and had been working about the sick cattle. Fearing that he might have contracted the disease from the cattle, he immediately hastened to Marietta, to undergo treatment to prevent the disease.

PEACH CROP SAFE

Growers Say that the Peach Crop is Still Safe.

The peach crop, according to the statement of a prominent fruit grower of the Smithburg peach belt, is so far absolutely safe and unharmed, as far as freezing is concerned. The buds were never in better condition at this season of the year, notwithstanding various reports to the contrary which have been circulated. The grower states that the latest varieties are as dormant in the buds as they were when the trees shed their leaves in the fall. As to the early varieties, the buds on these trees have pushed out some but not enough to be injured. These would easily stand without harm a temperature of 12 or 15 degrees below zero.

ADRIANOPOLE IS PREY TO FLAMES

Part of City Set on Fire by Bombardment.

ANOTHER VILLAGE BURNED

Allies' Troops Engage Turks in Many Places and It is Reported Scutari Has Fallen.

London, Feb. 5.—Some quarters of Adrianople are in flames as the result of the bombardment by the Bulgarians and Servians, which was resumed with even more intensity, according to advices received here from Sofia.

A full division of Bulgarian infantry advanced to the attack of Adrianople under cover of a fierce bombardment, according to this dispatch. The result of the assault is not known.

Although no serious fighting has occurred along the Tchatalja lines, the Bulgarian troops are not idle. The village of Tchatalja, which has hitherto marked the limit of the Bulgarian lines, is in flames. Its destruction was apparently decided on for tactical reasons.

An encounter between Bulgarian and Turkish troops also took place at Malatepe, near Gallipoli.

The bombardment of the forts around Adrianople was begun by the Bulgarians and Servians surrounding the city almost at the moment of the conclusion of the armistice. Siege guns and field guns from various points commanding the forts opened fire. Not even the residential portion of the city was spared.

There is considerable difference of opinion as to how long the fortress will be able to hold out. One dispatch from Mustapha Pasha concluded with the prophecy made by the Bulgarian staff that two weeks would suffice for the besiegers to force the Turks to capitulate.

Military men, however, who know something about the several lines of forts which form the defenses of Adrianople look for a prolonged defense by the besieged garrison.

Shukri Pasha, the Turkish commander, who is defending Adrianople, has declared that he will not surrender the fortress until the last of his soldiers has been killed. While there have been some desertions from the ranks of the garrison, chiefly Christian soldiers serving with Turkish regiments, Shukri Pasha still has some 40,000 men.

It is possible that the allies may attack Gallipoli or Tchatalja, or both of these positions, where most of the allied forces are. If they could clear Gallipoli of Turkish troops and attack the Dardanelles Straits this would give free passage to the Greek fleet, which would then be able to render some assistance at Tchatalja.

On the other side of the Balkan peninsula, Scutari, where the Montenegrins are besieging the fortress, it is reported through the correspondent of a Dutch newspaper to have fallen.

There is no confirmation of this report from any other source.

British and German warships passed through the Dardanelles for the protection of the foreign residents of Constantinople, and a fleet of warships belonging to other powers is anchored in Besika bay, ready for any emergency.

DON'T BELIEVE IN KISSING

Woman Married Eight Years Never Kissed Husband.

Baltimore, Md., Feb. 5.—Mrs. Theresa E. Deems appeared in court here against her husband, George W. Deems, for non-support. She gave out an opinion in open court that wives should never kiss their husbands.

"Haven't you ever kissed your husband?" asked State's Attorney Broening.

"I have never kissed," she said. "My father and mother never kissed me. In my eight years of married life I have never been kissed by my husband, nor have I kissed him. I have never kissed my seven-year-old boy. I don't believe in it. I would not kiss my baby, whom I love more than my own life."

Manuel Calero Denounces His Government.

Mexico City, Mex., Feb. 5.—"I lied to the American government for ten months, telling them that the Mexican revolution would be over in six weeks. I was forced to invest my diplomatic mission with a domino and mask."

This statement was made by Manuel Calero, formerly Mexican ambassador to the United States, during the discussion of the loan measure in the senate.

"The truth is that the department of finance has not painted the situation as it really is. We should speak the truth though it destroys us. The truth is that the situation is desperate."

INJUNCTION DELAYS \$300,000,000 SUBWAY

N. Y. Commission Enjoined From Signing Contract.

New York, Feb. 5.—Thirty minutes before the public service commission was to have met to sign the contracts for New York's new \$300,000,000 subway, an injunction was served prohibiting the commission from taking action.

The injunction was obtained by Clarence J. Shearn, counsel for William Randolph Hearst. Hearst has been fighting for a municipal operating plan.

Under the proposed contracts the Interborough Rapid Transit company, the Brooklyn Rapid Transit company and the New York Municipal Railway company agree to divide the cost of construction with the city and to equip the new lines in return for the privilege of operating them for forty-eight years. In 1965 all subway lines are to become the property of the city.

Its opponents argue that the plan fails to give the city its due share of supervision or of the profits of subway transportation. In return for the investment of \$80,000,000 the Interborough is to receive \$6,335,000 a year, representing its annual profits on the lines under operation, and 6 per cent to cover interest and sinking fund on the bonds it will have to issue. If any surplus remains the city also is to receive interest and sinking fund on its investment.

BOMB SLAYER TELLS OF MURDERS

Sent Infernal Machine That Killed One Last Sunday.

WANTED TO HOLD HIS JOB

Own Daughter Killed by Janitor, Who Sent Infernal Machine to Judge Rosalsky, of New York.

New York, Feb. 5.—John Paul Farrell, a janitor, confessed that he sent to Bernard Herrera last Sunday the bomb which resulted in the death of Mrs. Herrera and serious injury to Herrera and to Miss Fughtman, a boarder.

Then Farrell astonished the police by calmly reciting that he sent the bomb which killed Mrs. Helen Taylor a year ago, adding that Mrs. Taylor was his daughter. Next Farrell solved the mystery surrounding the sending of a bomb last year to Judge Otto Rosalsky. Finally he explained the death of "Kid" Walker, slain in 1887.

He slew Mrs. Taylor, he said, because she was his daughter and had gone wrong. "Kid" Walker was killed, he declared, by a man named LeStrange because Walker had caused Mrs. Taylor's downfall.

The attempt on Judge Rosalsky's life, he added, was made because the judge had sentenced a criminal, unnamed, to twenty years' imprisonment. The bomb was sent to the judge by a man who was known to Farrell only as "Tony."

Herrera's life was sought, Farrell said, because Herrera had said that he would discharge him from his job as janitor. Farrell was employed at the apartment house where Herrera is superintendent.

Before the astonished detectives, the maker of deadly bombs constructed a dummy infernal machine, explained how he made it, what he put into it, how it operated and what the damage would be to the person who should open it. The Taylor and Rosalsky bombs, he said, were entrusted to the mails.

In the case of Herrera, Farrell said he had crept upstairs when Herrera was away and had placed the bomb, wrapped in a pasteboard box, on the landing outside his door. He insisted, however, that he intended only to scare the family.

Arrested as a "material witness," Farrell confessed only after an all-night grilling. He held out till dawn. Then the detectives sent for Deputy Police Commissioner Dougherty and the prisoner went over with him what he had told the others. The construction of the dummy bomb followed.

Farrell told the police he began to make the Herrera bomb last Thursday night, completed it on Friday and kept it in his room till Sunday. Moved by the knowledge that his recital might send him to the electric chair, the bomb-maker placidly took pencil and paper and drew numerous diagrams, explaining how he had planned the mechanism.

He began work on the bomb after Mrs. Herrera had notified him that a colored man had been engaged to take his place. In a short bit of pipe, picked up in the basement of the apartment house, he placed a bottle of nitroglycerine, holding it in position by nails and paper. In the month of the bottle he placed a cork, in which a hole had been burned with a red-hot hairpin. A percussion cap, a small spring, a steel button, a box, wrapping paper and twine completed the make-up of the infernal machine. The spring was so arranged as to snap the button sharply against the percussion cap when the box was opened.

"Unless this man is crazy," said Mr. Dougherty, "he have caught the most dastardly criminal that has come to the attention of the police in fifty years."

DUAL JOB HOLDERS HIT BY NEW BILL

Proposed Law Would Affect a Long List of Officials.

MANY DRAW TWO SALARIES

Mothers' Pension Bill is Reported to the Senate — Would Make Picket Duty Legal.

Harrisburg, Pa., Feb. 5.—Fire was opened in the house by Frederick E. Geiser, Democrat, of Easton, against persons drawing dual salaries from the state.

Geiser's attack took the form of a resolution which calls for an investigation by a committee of three Republicans and two Democrats, to be appointed by the speaker, under instructions to report within thirty days to the house.

Former Senator John T. Murphy, of Philadelphia, had a bill introduced by Senator Farley, of that city, prohibiting dual office holding by Federal, state, city, county, borough, township or district officers. He excepts the office of notary public or commissioner of deeds or any office held ex-officio.

Seventeen select councilmen of Philadelphia would be affected if this bill becomes a law, according to Mr. Murphy.

Mr. Geiser says he believes there is "a nest of dual office holders" on the state's payroll. He mentions the following:

George Thorn, chief clerk in the office of secretary of the commonwealth, salary \$2500; secretary board of pardons, salary, \$1000, and besides receives perquisites for counting the state vote.

John Kendelhart, \$1400, clerk to the secretary of commonwealth, and filling a clerkship at \$500 for the board of pardons and the fees of a notary public.

John F. Whitworth, corporation clerk at \$2250, and secretary of the underground railroad commission at \$750, which, according to Mr. Geiser, has issued only one charter since it was established by Governor Stone.

Whitworth was also a water commissioner at \$3000, Mr. Geiser declares, until Governor Pennypacker asked for his resignation.

James V. Murray, corporation clerk, auditor general's department, salary, \$3000; also gets \$500 as clerk to the board of accounts.

Christian Meyers, county clerk at \$2200, and receives \$1000 as secretary to the board of revenue commissioners. Mr. Geiser says a sub-clerk writes the minutes.

H. D. Jones, cashier in the state treasury at \$5000 annually; secretary of the sinking fund at \$1000, and until recently \$600 secretary to the board of public grounds and buildings.

James Craig, deputy secretary of internal affairs, salary, \$3000; also gets \$500 as secretary of the board of property.

Walter Gaither, Governor Tener's private secretary at \$5000 a year; recorder of the board of pardons at \$600 annually, and secretary of the Panama-Pacific Exposition commission.

Cassius A. Dunn, stenographer in the executive department at \$1200, and gets \$600 more as clerk to the Capitol Park commission.

Samuel P. Todd, executive controller \$3000, and receives \$3000 as secretary of the Capitol Park commission to investigate real estate prices.

Harry McDevitt, assistant controller \$1800, and secretary of the board of public grounds and buildings, \$600.

Thomas J. Lynch, assistant executive clerk at \$1800, and water commissioner at \$3000.

Benjamin Demming, assistant general's chief clerk at \$1800; receives \$300 more as recorder of the state military board, and \$500 as secretary of the state armory board.

Senator Richard V. Farley, of Philadelphia, introduced a bill in the senate that would make it lawful for strikers to do picket duty and to otherwise carry on strikes against employers, so long as no irreparable injury is done to property or property rights. It provides that no injunction or restraining orders shall be issued without reasonable notice to the parties enjoined, except where immediate and irreparable injury might be done to the complainant when the court may issue a temporary restraining order.

The senate committee on pensions and gratuities reported out the Sheatz bill providing pensions for mothers to maintain their destitute children. Senator Sheatz said that Representative Stein, of Pittsburgh, informed him that the western city wants a mothers' pension act along the lines drawn by the Philadelphia.

HUMOROUS QUIPS

After Many Trials.

He was a sad faced American tourist, and as he seated himself in a London restaurant he was immediately attended by an obsequious waiter.

"I want two eggs," said the American—"one fried on one side and one on the other."

"Ow is that, sir?" asked the astounded waiter.

"Two eggs—one fried on one side and one on the other."

"Very well, sir."

The waiter was gone several minutes, and when he returned his face was a study.

"Would you please repeat your order, sir?"

"I said very distinctly two eggs."

one fried on one side and one on the other."

Oppressive silence and then a dazed "Very well, sir."

This time he was gone longer, and when he returned he said anxiously:

"Would it be awking too much, sir, to 'ave you repeat your order, sir? I cawn't think I 'ave it right, sir, y' know."

"Two eggs," said the American sadly and patiently—"one fried on one side and one on the other."

More oppressive silence and another fainter "Very well, sir."

This time he was gone still longer. When he returned his collar was unbuttoned, his hair disheveled and his face scratched and bleeding. Leaning over the waiting patron he whispered beseechingly:

"Would you mind trying boiled eggs, sir? I've 'ad some words with the cook."—Ladies' Home Journal.

AGAIN BLOCK APPOINTMENTS

Senator Gallinger Thinks It Hopeless to Seek Confirmations.

Washington, Feb. 5.—After another ineffectual effort to force action on President Taft's nominations pending in the senate, the Republicans decided to make no further move for the present. Senator Gallinger said:

"It has been demonstrated that the Democrats can block all confirmations and many of us consider it a pure waste of time to make further attempts at confirmation. We are liable to decide to do nothing more."

The executive session was brief. The Democrats forced an adjournment by demanding a roll call to establish a quorum and then absented themselves to insure a failure of a quorum.

It is now considered probable that the next move for an executive session will be made by the Democrats, and some believe it will result in only the confirmation of most of the army, navy, diplomatic, revenue cutter and public health service nominations.

EXCHANGE REFORM IS PLAN OF PROBERS

Money Trust Investigators Will Urge Many Changes.

Washington, Feb. 5.—Government regulation of the New York stock exchange, it was learned, will be the leading recommendation in the report of the house committee which investigated the "money trust."

The report will be submitted late this month, after the testimony of William G. Rockefeller, concerning the copper pool transactions, has been taken.

The report also will deal in vigorous terms, it is said, with the relations between the exchange and the national banks of New York, the control of many financial institutions by a comparatively few men through interlocking directorates and the drastic rules of the New York clearing house association, but no special recommendations will be made for extensive reform in regard to national banks.

It is the hope of the committee to continue the bank phase of the inquiry in the next session of congress, with additional power to inquire into the affairs of the banks, so that more information may be had concerning loans and discounts and the relations of the banks to underwriting syndicates.

The proposal to regulate the stock exchange will be based on the fact that much of the business of the ex-

change is interstate in character. Thus, it is contended, it will be possible to pass laws giving the government the right to regulate all these transactions.

Louisiana ranks first by a large margin as a sulphur producing state. Nine years ago sulphur was imported into the United States to the value of \$3,709,000. During the year just closed the total value of imported sulphur had shrunk to \$552,836, and the output from Louisiana is responsible for the slump.
